Reviews

It is great and fantastic. Sure, it is actually perform, nevertheless an amazing and interesting literature. Once you begin to read the book, it is extremely difficult to leave it before concluding.

(Ivy Hilll DDS)

COMPUTER SUPPORTED COOPERATIVE WORK IN DESIGN I: 8TH INTERNATIONAL CONFERENCE, CSCWD 2004, XIAMEN, CHINA, MAY 26-28, 2004. REVISED SELECTED PAPERS**DOWNLOAD**

Springer. Paperback. Condition: New. 460 pages. Dimensions: 9.3in. x 6.1in. x 0.9in. The design of complex artifacts and systems requires the cooperation of multidisciplinary design teams using multiple commercial and non-commercial engineering tools such as CAD tools, modeling, simulation and optimization software, engineering databases, and knowledge-based systems. Individuals or individual groups of multidisciplinary design teams usually work in parallel and separately with various engineering tools, which are located on different sites, often for quite a long time. At any moment, individual members may be working on different versions of a design or viewing the design from various perspectives, at different levels of detail. In order to meet these requirements, it is necessary to have effective and efficient collaborative design environments. These environments should not only automate individual tasks, in the manner of traditional computer-aided engineering tools, but also enable individual members to share information, collaborate and coordinate their activities within the context of a design project. CSCW (computer-supported cooperative work) in design is concerned with the development of such environments. This item ships from multiple locations. Your book may arrive from Roseburg,OR, La Vergne,TN. Paperback.
