

## Functional Calculus and Coadjoint Orbits

Filesize: 9.55 MB

### **Reviews**

*It is a single of my favorite publication. I have read and so I am sure that I will likely to study again once again down the road. I am delighted to let you know that this is basically the greatest publication we have read inside my own life and might be the best pdf for possibly.*

Condition: New. Publisher/Verlag: VDM Verlag Dr. Müller | A Non-commutative Version of the Kirillov Character Formula | The Kirillov character formula gives a striking correspondence between the unitary irreducible representations of a compact semisimple Lie group and its set of integral orbits on the dual of its Lie algebra. In this thesis, the same correspondence is derived without the use of character theory. It is shown to be related to the convexity properties of the support of the Weyl functional calculus of the infinitesimal generators of the representation. This result uses Edward Nelson's theory of "operants" in a fundamental way. This has been developed to put Feynman's operator calculus on a rigorous basis. In particular, a beautiful explicit formula of Nelson for the Weyl calculus facilitates the extension of the Kirillov formula to the matrix coefficients of the representation, thus giving a "non-commutative" Kirillov-type formula for compact Lie groups. | Format: Paperback | Language/Sprache: english | 141 gr | 96 pp.
