Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.This report contains information on well construction, groundwater withdrawals from wells, water level changes, and related changes in precipitation and streamflow in Utah. Supplementary data such as graphs showing chemical quality of water and maps showing water level contours are included in reports of this series only for those years or areas for which applicable data are available and are important to a discussion of changing groundwater conditions. The report includes individual discussions of selected major areas of groundwater development in the State for the period from the spring of 1988 to the spring of 1989. Much of the data used in the report were collected by the Geological Survey in cooperation with the Division of Water Rights, Utah Department of Natural Resources. (USGS).
