RareBooksClub. Paperback. Book Condition: New. This item is printed on demand. Paperback. 56 pages. Original publisher: Aberdeen Proving Ground, MD : Army Research Laboratory, 2001- OCLC Number: (OCoLC)58393464 Subject: Armored vehicles, Military -- Models -- Computer simulation. Excerpt: . . . Rendered image of an extrusion die. CSG approach in which a cone is BREP approach in which four subtracted from a cylinder. surfaces are stitched together. Figure 1. CSG and BREP approaches to representing an extrusion die (Tanenbaum, 2001). For BRL-CAD, a simple type of BREP is available in the form of triangles; it is called the Bag of Triangles (BOT) primitive. If the BREP object consists of all triangles, the BRL-CAD representation can be an exact duplicate. But more often, a BREP object consists of smooth, curved surfaces, meaning the BRL-CAD triangle representation will be an approximation of the object. Note that this approximation may be made as close to the true surface as desired, but at the cost of more, smaller triangles (see figure 2) (Tanenbaum, 2001). Thus, the higher degree of smoothness means the greater the impact on file size and performance of any application trying to employ...

Reviews

This ebook could be well worth a study, and superior to other. It really is basic but unexpected situations inside the 50 % of your ebook. Once you begin to read the book, it is extremely difficult to leave it before concluding.

-- Prof. Buford Ziemann

A really great publication with perfect and lucid explanations. Of course, it is play, continue to an amazing and interesting literature. I discovered this book from my i and dad suggested this publication to find out.

-- Dr. Augustine Borer
