

## Trade Remedies (Hardback)

By -

Nova Science Publishers Inc, United States, 2008. Hardback. Condition: New. UK ed.. Language: English . Brand New Book. Unfair foreign pricing and government subsidies distort the free flow of goods and adversely affect American business in the global marketplace. Import Administration, within the International Trade Administration of the Department of Commerce, enforces laws and agreements to protect U.S. businesses from unfair competition within the U.S. resulting from unfair pricing by foreign companies and unfair subsidies to foreign companies by their governments. Dumping occurs when a foreign producer sells a product in the United States at a price that is below that producer's sales price in the country of origin ( home market ), or at a price that is lower than the cost of production. The difference between the price (or cost) in the foreign market and the price in the U.S. market is called the dumping margin. Unless the conduct falls within the legal definition of dumping as specified in U.S. law, a foreign producer selling imports at prices below those of American products is not necessarily dumping.
