

## Electronic Properties of Polymers

By Kuzmany, Hans / Mehring, Michael

Condition: New. Publisher/Verlag: Springer, Berlin | Orientation and Dimensionality of Conjugated Systems Proceedings of the International Winter School, Kirchberg, (Tyrol) Austria, March 9-16, 1991 | The International Winter School on Electronic Properties of Polymers Orientation and Dimensionality of Conjugated Systems, held March 9-16, 1991, in Kirchberg, (Tyrol) Austria, was a sequel to three meetings on similar subjects held there. The 1991 winter school was again organized in cooperation with the "Bundesministerium für Wissenschaft und Forschung" in Austria, and with the "Bundesministerium für Forschung und Technologie" in the Federal Republic of Germany. The basic idea of the meeting was to provide an opportunity for experienced scientists from universities and industry to discuss their most recent results and for students and young scientists to become familiar with the present status of research and applications in the field. Like the previous winter schools on polymers, this one concentrated on the electronic structure and potential for application of polymers with conjugated double bonds. This time, however, special attention was paid to the effects of orientation and dimensionality. Anisotropy of the electric conductivity in stretch-oriented samples and whether the transport mechanisms are one-, two-, or three-dimensional or might even have a "fractal dimensionality"...

### Reviews

*This written book is excellent. it absolutely was writtern extremely completely and useful. You may like how the article writer write this ebook.*  
-- **Dayton Stracke I**

*A really wonderful book with perfect and lucid information. I actually have study and i am sure that i am going to gonna read through once more yet again in the future. I am pleased to explain how this is actually the finest ebook we have study inside my personal daily life and might be he finest book for at any time.*
